

March 2025

AID4FACE2GEO – a humanitarian relief support concept, designed to enable **direct help** through Volunteer teams & participating humanitarian relief agencies in favour of **distressed children** – located in **disaster & conflict zones** around the world.

The concept explained in 4 steps:

1. IDENTIFY

Register, match & identify distressed children (beneficiary) in disaster & conflict zones by means of biometric, facial & or manual registration process.

2. LOCATE

Establish & register geo-location information of the onboarded children (beneficiary), providing vital preventive measures, protection & emergency assistance capabilities to authorized humanitarian relief agencies.

3. ASSESS

Evaluate, assess & establish the children's (beneficiaries) **Refugee-Influx Emergency Vulnerability Assessment (REVA)**, applicable under UNHCR / WFP standards.

4. REACT

Coordinate, implement & supervise emergency relief operations (ERT) as well as secure, support & guide humanitarian relief agencies on the ground in their targeted emergency assistance operations.

Current Field Missions

Ukraine / Turkey - Syria, Palestine / Kenya / Thailand – Cambodia / Bangladesh / Peru – Colombia

Corporate Sponsorships

The concept seeks to attract corporate sponsorships by means of corporate membership subscription, material & service allowances as well as discounted contract / invoicing agreements, to financially support its nonprofit cause.
